

Complete solutions for pressing machines
and ironing tables

TRECOLAN
Handel

www.trecolan-handel.de

Your competent partner in the ready-to-wear industry

The company Trecolan Handel is based in the North German hanseatic town of Bremen, which boasts a centuries long heritage of trade. Microlite was established in July 1978 as a subsidiary of the company Molan. As of November 15, 2010 this was renamed Trecolan Handel and allied with the new main company Trecolan GmbH.

Included in the great variety of products on offer in Trecolan Handel are, in essence the variety of covers for pressing machines and ironing tables which are used in the ready-to-wear industry. We offer a range of pad and cover solutions.

For many years we have been supplying a number of filtration materials. These are becoming ever more important due to an increase in ecological regulations. These are used in climate controls units, industrial climate control units and spraying booths.

With its competent business personnel Trecolan Handel is always a reliable business partner, even in complicated technical matters. Our company philosophy is to sell products of the highest quality and offer a variety of practical solutions.

Through our company group we have direct access to highly qualified technicians, as well as our own laboratory and research and development department. Thus we are well-equipped to deal with a wide range of challenges.

Our company operates on a global scale, which, with long-term company contacts, numerous partners and sales representatives, has built up a worldwide sales network.

Our company components

- Ironing pads and felts
- Woven fabric made of a variety of chemical fibres, cotton and metal
- Wide range of accessories for ironing and laundry
- Ready-made complete covers
- Filtration material
